

# Sagemath as a calculator

Maurizio Gardini

30 december 2024

## Abstract

Use python. Wip.

## Basic arithmetic

$1 + 1$

2

$103 + 101$

2

$7 * 9$

63

$11.0 / 4.0$

2.75

$2^5$

32

## Functions

### Solving equations and inequalities

`show(x^2 + x == 6)`

$x^2 + x = 6$

`solve(x^2 + x == 6, x)`

$[x = (-3), x = 2]$
